# ★ Regional Council response to Alberta's planned legislation targeting transgender people

The chairperson of the Regional Council, Rev Helen Reed, <u>has responded to Alberta</u> <u>Premier Danielle Smith's announcement</u> regarding the planned restrictions of the rights of transgender, non-binary, Two Spirit, and other gender diverse children and youth.

#### Northern Spirit Regional Council Weekly Newsletter: NEWS Edition, February 7, 2024

Since these proposed restrictions include health care and sports, it is likely they will also affect communities within our Regional Council in Northeast BC and NWT, if passed. This week Northern Spirit, Chinook Winds, General Council, and Affirming Connections (Calgary) are meeting to look at action options. All our voices are needed, and MLAs will likely need to be our first line of contact. A number of community vigils and demonstrations have already taken place; please continue to watch your local media and social media. Some anti-hate sites have already noted with gratitude presence from local United Churches. Showing public support for trans youth and children at vigils, through flags and signs, in worship, and more, is so important: even if we never know the results.

#### **★** Hate mail being sent to Affirming ministries: help us stop it at the border

Transphobic and homophobic hate mail from the US is again being sent to United Church Affirming ministries and possibly non-Affirming ones too. The package contains print messages and a USB key and often has a Customs declaration that it is a "gift." Some or all are sent from "Woodward Publications" in Oklahoma.

**If you receive mail that you suspect to be this or other hate correspondence, please contact your Regional Council office.** Do not throw the package out immediately, and if you open it, do not use the enclosed USB key! <u>Please click here for</u> <u>full information on how you can help stop this</u> by adding information to the Canadian Border Services Agency case we have opened.

### ★ Level Up! Website creation for local ministries

Websites are an important part of the toolbox for communities of faith of any size or location, but setting up a new one or doing a refresh can seem daunting. Some Regional Councils have worked with Cheri Uthe of Faith Productions to develop an adaptable, affordable template for church websites. This template is built on the WIX web-builder platform and can be adapted to any congregation or ministry. There are a variety of options and support packages available. Cheri can complete and deliver a "plug 'n'play" site for you, serve as your ongoing website support person, share information about various charitable grants for discounts on software licensing and webhosting, and more. Please have a look at a summary here, and think about this option if your site needs a refresh or if you're just getting started.

#### **★** Action: Major concerns about Canada's military sales to Israel

United Church people are asked to keep <u>writing our members of Parliament using this</u> <u>action tool</u> or our own letters, as concern grows that Canada's military exports to Israel may risk complicity in genocide. In their December 2023 report, "<u>Fanning the Flames:</u> Northern Spirit Regional Council Weekly Newsletter: NEWS Edition, February 7, 2024

<u>The grave risk of Canada's arms exports to Israel</u>," Project Ploughshares reveals that Canadian corporations, with permits granted by the Canadian government, regularly export military hardware and components to Israel. (Project Ploughshares is the ecumenical peace research body related to the Canadian Council of Churches, of which The United Church of Canada is a member.) In fact, when adjusted for inflation, Canadian sales in 2023 were almost as high as the peak year, 1987. Only by ending its military exports to Israel can Canada meet its domestic and international obligations to eliminate violations of international humanitarian law in Gaza, including possible war crimes.
